

March Musings

Here in Northern Ohio, the month of March is the first time we start to let ourselves get excited for spring... an anticipation of more light and more green! It is a good analogy to how we see things here at the clinic as we are getting a glimpse of really good things to come and are hopeful for what the next season will bring. More and more people are learning about what we do, new partnerships are being made and God is opening up doors for even bigger ministry opportunities! We are glad to have you along for whatever lies ahead.

Well-being By Design is **FIVE years old this month**. It is hard to believe that what was a simple word Yahweh gave Kim while she was cleaning her bathroom in preparation for the Sabbath has turned into an international ministry with Dr. Monzo at the helm. Kim still remembers that she was minding her own business when, out of the blue, she heard in her spirit, "I want you to open a wellness center that is founded on My principles, where I, alone, will be exalted". He gave her the name, told her what the logo should look like and led her to open the doors in Medina, Ohio. A few months later, Dr. Monzo moved in and, well, things have never been the same for either of them! Although some things have changed since those first few months, the vision and the mandate remain the same: Provide a place where people can be healed in body, soul and spirit through the power of the God of the Bible.

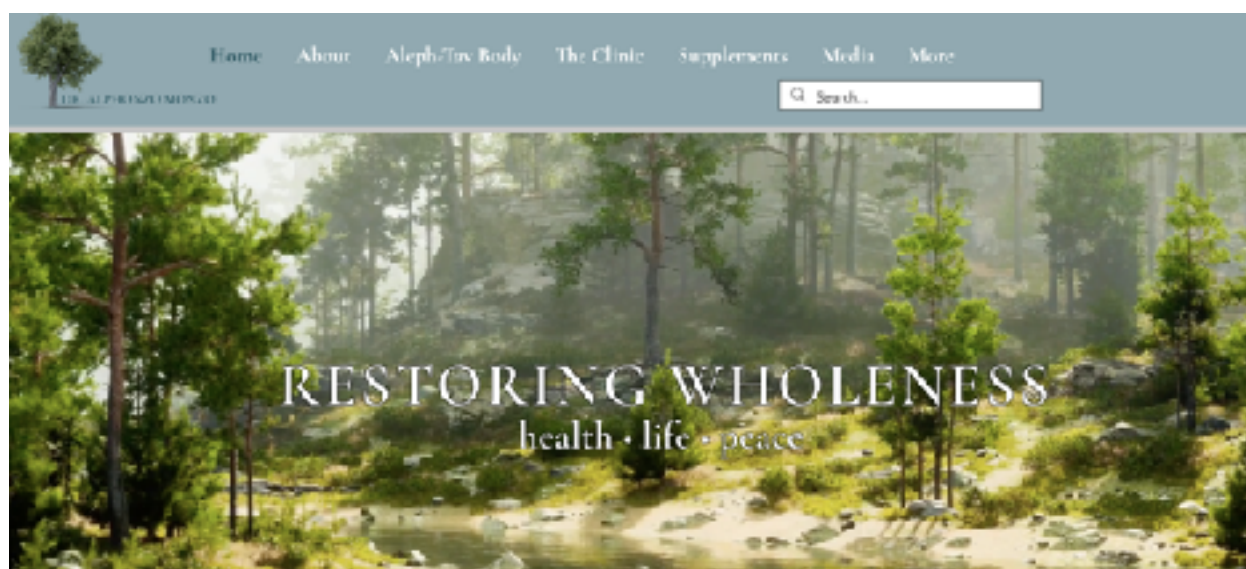

In honor of what Yah has done in the last 5 years, **we are offering 5%** off any initial or rescan with the Qest4 or Qi5 if you make the booking in the month of March. The scan be scheduled up to 6 months in advance. Mention **WBD Birthday** to take advantage of the discount.

New Website and Socials!

Dr. Monzo finally has his own website up and running. Keep in mind, this is still a work in progress but we are happy to get it launched. DrMonzo.com will be a landing page of sorts where people can easily find information about him and then be directed to the clinic, Aleph Tav Body, his teachings and much more.

Update on Kim's Husband, Dan

Dan, was diagnosed with 4th stage throat cancer last year. **You can read all about it from his Caring Bridge** - be sure to start with the post How We Ended Up Here and sign up for updates to stay in touch!

At the end of January, they relocated to Scottsdale, Arizona for a hybrid treatment approach. After roughly a month of treatment, he is already noticing signs that his body is healing! It might seem like a little to some people, but he is regaining his senses of smell and taste along with more of an appetite and he can breathe again through his mouth and nose when he blocks his tracheotomy! Thank you to those who have been praying, have reached out or given to this cause!

In case you missed it.....

ATB Enhanced Now Available!

Dr. Monzo has finally created an ATB touch therapy session that incorporates unique laser vials, tuning forks, oils and emotional release! This enhanced ATB is so powerful that several applications can be completed in one session! The best way to experience this new ATB therapy is to book with 2 practitioners - one to apply the hands on portion, and one to apply the other

elements. This new service can be booked in 30 and 60 minute sessions for \$70 and \$140 respectively. This can be done with 1 practitioner, but the session is more efficient with 2. The single practitioner variation is booked for 75 minutes and costs \$120.

This training will be available in the near future for our ATB Course 1 graduates. Stay tuned for more info!
